

Hustisford School District Academic & Career Planning

Academic and Career Planning (ACP) is an important process in our district. This process helps students determine where they are going in their life and how to get there. Watch this short **clip** for more information.

Mission Statement: “The Hustisford School District is committed to empowering all students to learn the skills, acquire the knowledge and develop the attitudes necessary for them to reach their full potential as citizens who can meet the challenges of a changing global society.”

To achieve this mission, students in the school district are utilizing the ACP curriculum and activities to explore the aspects of ever changing career opportunities. Within these activities, students are developing skills, acquiring knowledge, and preparing themselves to be successful in their future career endeavors. Furthermore, students are striving towards fulfilling their potential and becoming productive members of our global community.

The Hustisford School District is currently implementing a school-wide ACP initiative. The Xello website is a tool being used to support Academic and Career Planning lessons. In addition, the students develop a portfolio of documents and resources useful in securing employment or furthering their education.
